

FIRST® Robotics Competition Team 11274 - MechCatical Warriors

2026-2027 Sponsor Packet

WHO WE ARE

West Campus students have had the dream of a FIRST robotics team here at our school since 2024. So we raised money and over a year later, during the 2025-2026 school year, our dream came to reality with West Campus High School MechCatical Warriors - Team 11274. Last year, we won the Rookie All-star Award at the California District Sacramento regional competition, earning us a ticket to State Competitions in San Francisco where we nearly qualified for Worlds. We were ambitious, modifying the kitbot heavily and outfitting it with an extendable hopper when advised otherwise. We even manually programmed our own swerve drive modules, which made running autos difficult, but taught us about the math behind what makes our robot run. After our strong rookie season, we made a point of building a strong foundation for the team and teaching new members essential skills. As a result, this year we have a team of 25 with over half being returners with experience in programming, design, driving, and outreach.

WHAT DOES SPONSORSHIP HELP FUND?

Your sponsorship will allow us to purchase parts and tools to further improve our robot and build up our program while also supporting transportation, food, and lodging for our team during competitions. It will also help our outreach efforts as this year, where we will partner with local elementary schools and libraries to expose students to robotics and bring STEM learning to our surrounding community.

FIRST® Robotics Competition Team 11274 - MechCatical Warriors

Costs

Main Event Registration	\$7,000
Off-Season Event(food only)	\$600
Event #1(food only)	\$600
Event #2 (food and lodging)	\$3,500
Spare Parts	\$1,500
Robot Building Materials	\$10,000

STUDENTS PAY \$0!
